Haunting, lyrical, sometimes edgy, sometimes dreamy - an eclectic collection of songs and styles influenced by Kathie's life in California, the Pacific Northwest and London. 15 MP3 Songs POP: Piano, EASY LISTENING: Soft Rock Details: Butterfly Bones has a shimmering, strong yet ethereal sound, centred around Kathie Touin's shifting, layered harmonies and rich arrangements. It moves easily from light to shadow and back, exploring a range of moods and emotions. Her lyrics are original; images and word-play effortlessly blended. Her work has been compared to that of Tori Amos, Aimee Mann and Alanis Morissette. Kathie grew up in California. At age seven she began weekly classical piano lessons, then as a teenager ventured into rock and jazz. Kathie joined her first band at 14, and around the same time began writing songs. She attended the Berklee College of Music in Boston, Massachusetts, before returning to California. Frustrated with a series of bands that never seemed to progress, Kathie went solo. She was snapped up by an independent label and released her first album, a collection of classical solo piano pieces. She spent five years living in the Pacific Northwest in the more rural environs of Seattle, Washington, where she continued to develop her songwriting. In 2003, Kathie married an Englishman and moved to London, where she recorded her latest album, Butterfly Bones. She continues to write and record in her own studio.
