Texas Style 12 MP3 Songs BLUES: Texas Style, ROCK: 50's Rock Details: In 2005 Leo Hull The Texas Blues Machine was nominated for best Blues Band in n Texas by the Dallas Observer. Their live show is high energy and one you will not soon forget. "SMOKIN OUTTA' TEXAS" is the much anticipated follow up to Leo's renowned first CD "12 Pack of Blues" "SMOKIN OUTTA' TEXAS" features the trademarks that have made Leo Hull one of the most respected figures on the Texas Blues scene - raucous, high energy blues, roadhouse romps, searing guitar licks, infectious melodies and a terrific sense of humor - plus outrage, optimism and belief in the redemptive power of music. This all original CD offers volcanic delivery and straight from the gut realism...a masterful blend of fiery blues, ballsy ballads and True Texas Blues. It is a stunning statement from an artist who has obviously paid his dues. They do still make 'em like they used to. "Road trip to Dallas, anyone?" Show UPN21 Dallas, Texas "SMOKIN' OUTTA TEXAS" I have just discovered a new CD "Smokin' Outta Texas" by Leo Hull The Texas Blues Machine, a Texas Blues Band that plays perfect Whip, Push, and West Cost Swing. Dancers, this is the one. I usually list my favorite songs, but on this CD all are my favorites. In my opinion it is not only the song, but it is the way Leo delivers the song. Leo put's a real dance beat on every song. In summary, this is a dancer's CD. That tough panel on Star Search would give this CD a 8 and Mr. Stein would probably wager his 4 Emmys that this CD is going to be a monster hit with the dance crowd and I certainly agree. Ronnie W.
