Details: *heart beats digital is the latest, long-awaited full length electro-hip-hop album from upcoming producer nozebleed. An all-out glitchy, chop happy, unique instrumental record that blends styles from 60s psych rock to ambient hip hop electronica. This one-of-a-kind release is a sound wall of heavy hitting drums, light rhodes-esque melodies, chopped voice pattern blurps, 80s funk vox synth lines and new age eccentric experimental noise collages. heart beats digital goes farther than your ordinary instrumental hip hop album and is a must-have emotional soundtrack for your life record. Nozebleed represents a unique sound derived from influences such as prefuse 73, dj shadow, jel, sixtoo, herbaliser, milosh, any many other artists. Nozebleed is out of the bedroom, low-man on the totem pole, broke musician, working for the enjoyment of passing on music to others. His goal is a head nod or a smile.
