GOSPEL: Country Gospel, COUNTRY: Modern Country Details: ray sang country music in clubs and bars in oklahoma city for about five years before dedicating his life to jesus at a fourth of july celebration with phil driskel in concert. as fireworks filled the sky and the 300 member choir sang, ray sat on a hill overlooking the event and bowed his head and gave his life to jesus christ. returning home that night he looked through his song book and threw away all the crying, dying, lying songs he was singing. soon he began writing uplifting and spiritual songs to questions he had in his life, such as what would jesus do in certain situations if he were living in this world today. what kind of music would he play? what kind of instrument would he play? and where would he play? this music album is a product of ray's life at that time. ray now lives in dallas, texas and has recorded his third nationally released album. god keeps blessing ray each day with people, places and things to enrich his life as he presses toward the mark.
