Dark ingenious pop songs with vibrant melodies you can't get out of your head and hooks that will keep you coming back for more. 11 MP3 Songs POP: British Pop, ROCK: 60's Rock Details: From the first bar Heartland pulls you into a world of psychedelic pop. Lennon meets Finn in a rush of guitars and beautiful unwinding melodies. The songs carry a lyrical weight, a critical eye and emotional honesty that run like a seam through this soaring, vital mix of in your face biting rock and introspective mystical reverie. From the vivid How I Fell, adorned unabashedly with Technicolor confectionary, to the Led Zeppelin inspired powerhouse One Hand, a lurid tale of scorned love, through to the dreamy Surface Chatter and contemplative Bring Your Armour Down, the breadth and character of this album will leave you breathless. Fans of guitar pop, intelligent lyrics and a penchant for the psychedelic need look no further.
