Mp3 Splitface & June 16th - Raydeeohh

Exciting electronica and hip hop mixture. 11 MP3 Songs ELECTRONIC: Trip Hop, HIP-HOP/RAP: Instrumental Hip-Hop Details: "Raydeeohh" is an aural escapade for the headphone lover. This is a great analog layer cake pressed up by June 16th and Splitface of Crew 932. The production has a rough low end, with record crackles and tape hiss dancing amidst the hi-hats. While most rap songs have the feel of an emcee picking a beat that will promote his style the best (so he stands out), these songs sound as if the rappers do their best to compliment the beat, as if the production was the star. Splitface mixed and mastered the whole project while sharing the production duties with June 16th, and they do a great job of making analog sound as beautiful as it is. People who are interested in should consider this download.
