Details: Thanasi is best known for his creative talents with a pen, his soft tenor voice and his soulful harmonies. Growing up in Toronto, Thanasi was inspired by the soothing sounds of Boys II men, Stevie Wonder, Babyface, Nat King Cole and a variety of other artists and musical genres which he encountered and learned from along the way. Born in Athens, Greece, Thanasi had been fascinated by music since he was a young child. At the tender age of seven, he took his first musical lessons studying classical guitar. By the age of ten, Thanasi and his family moved to Canada after his parents separation. This move and his parents eventual divorce were devastating for him, since he is a strong believer in family and its importance in creating true stability in ones life. The changes that occurred in his life, however, helped him mature and his music became a catalyst for expressing his emotions. After High School, Thanasi enrolled in the music program at Humber College but decided to take time off from his studies to pursue and record his first EP titled In Time. He wrote all of the tracks on the album and multi-instrumentalist Esteban Carvallo aided him in arranging and producing his music. After the completion of In Time, Thanasi decided to continue his studies in music. He enrolled in York Universitys Honors Bachelor of Fine Arts Program. In April 2008, Thanasi graduated from York University with Honors. The writing and recording of Thanasi's debut album "Endless" took a little over two years to complete. The lyrics portray personal events and paint a picture for the listeners as they begin to listen and are eager to see what comes next. The music arrangements are sensational and tell a story of their own.
