You Could Only Imagine The Frustrations That Where Pouring Out Of Me When I Couldnt Find The Ebook Document I Needed To Edit Right Before Our Website Went Live. Just Think About You Going Live With An Information Product, You Have Affiliates Lined Up To Send Traffic In A Day And You Found A Major Mistake In Your Ebook. Oh no, I cant find my document to edit. What am I going to do? What, this will never happen to you? I thought the same until it happened to me. I also know of a lot of people on popular forums that are pulling their hair out of their heads because of the same very thing. The last thing I wanted is to look like a amateur in front of my affiliates. Luckily I came up with a solution that save my butt and can save yours as well. I created a program that will suck out all the text of a pdf and create an editable text file. I call it Tiger PDF Convert.It is extremely easy to use. It doesnt get any easier than this my friend.Use this software to build your business and give your customers the same opportunity by selling them a copy as well. They will love you for it and you will build a reputation of selling high quality, easy to use products.
