Details: My name is Lisa Provedor-Snyder and I'm a composer of instrumental piano music. Ever since I was a child playing our family's old piano in the basement, my great passion has been to hear the sounds of nature in the tones which ring out from the piano. I also sometimes sense beautiful music emanating from flower petals, an evening sky or a tempestuous storm. This collection of music is my own attempt to capture something of that deep mysterious music which is always ringing out from nature
