Listen deep 8 MP3 Songs POP: California Pop, ROCK: Modern Rock Details: Standish is a sensational musician drummer! He has received standing ovations at The House of Blues, The Whisky and a multitude of small clubs in the greater Los Angeles area. He won one of the Carmine Appice drumming competitions (the only one he entered) and he is a member of the Musicians Union Local 47. But, in Painting a Picture his multiple personality has finally exposed all his faces. Since he plays piano, trumpet and guitar and, has an obsession with computers and technology, he has put this CD together almost single-handedly in his own studio. (You will see credits where credits are due.) You can hear his obsession with Sonics in this CD. There are some awesome transitions and unique musical stunts. Chuck keeps his chops up with a Big Band on Thursdays and you can see him with other local groups at various other gigs from time to time. You can check out his website at [origin-music](#) I think hes on a roll. Love and happy listening,
