

Mp3 Deena Robinson - Turn It Silver

[DOWNLOAD HERE](#)

Folk chick rock. 10 MP3 Songs POP: Folky Pop, ROCK: Adult Contemporary Show all album songs: Turn It Silver Songs Details: If you don't know that Deena Robinson is a singer-songwriter, and a particularly gifted one at that, that's all right. She's still getting used to the idea herself. A performer from an early age (she was a national champion synchronized swimmer in the 10 and under category), Robinson spent her musical adolescence in the grind of New York, composing songs, clinging to the guitar, and frequenting small clubs like The Bitter End and CBGBs. But it wasn't until she moved to Los Angeles that the Maryland native fully turned her attention to playing her own songs. With the release of her second full-length album, *Turn It Silver*, word is fast getting out about the doe-eyed, dark-haired songstress. On the strength of her disarmingly smart and provocative songs and her easy, intimate performances, audiences have been enthralled, critics have been charmed, and even the tough-on-herself Robinson pronounces herself optimistic for now, at least. Deena Robinson plays regularly in Los Angeles and tours periodically. Her brand of "folk-chick-rock" has been broadcast on NPR's All Songs Considered/Open Mic show, LA's KLOS 95.5, WNLA 103.1 in the Mississippi Delta, KCLA 99.3, and a wide array of internet radio stations. Her songs can be heard in numerous films and trailers, including the film "Perfect Opposites", starring Joe Pantoliano, Martin Henderson and Piper Perabo. Music Connection Magazine says Deena Robinson is a, "Talented storyteller..[with a] unique ability to deliver soulful entertainment." IndieTude Magazine says, Robinson's songs, which are at once heartfelt and wry, are a true testament to her talent not only as a performer but as a wonderful storyteller. Her petite frame belies the force of her stage presence, the force of her voice, and the strength of her words, which resonate with everyone who believes in the human spirit but is firmly planted in the reality of life's missteps.
