A blend of folk, country, jazz and roots with an emphasis on words that stay with you. 11 MP3 Songs  
FOLK: Folk Pop, ROCK: Roots Rock Details: Independent singer/songwriter from Ottawa Canada  
influenced by Paul Simon, James Taylor, Paul Kelly and Donald Fagen. Gerry is currently recording his  
third album with Dave Draves as co-producer and engineer. This music is about returning fire. Returning  
means bringing, sending, sending back, or putting back. Fire is the light, flame and heat which  
combustion manifests. Fire is brilliance, luminosity, ardor, fuel, and inspiration. Fire also relates to severe  
trials, ordeals, or attack, whether verbal, psychological, or by conventional weaponry. This music returns  
fire to times past, and to the Prairies. It returns fire to those coming to prayer, looking for a reason, or  
dancing under a black sky. It returns fire to those who are lucky, have more than they need, have less  
than they think or deserve much more. To those hesitating, disagreeing, coming home, or homeless. To  
those walking in the rain, and to spirits painted for celebration, or war. But most of all, this music returns  
fire to those who have sent love and energy.
