Details: Meditations, the latest album by Kim Carter is a mix of classical piano, ambient synthesizers and rich effects, creating a meditative atmosphere full of beautiful melodies and emotive harmonies. In a world so full of stress and anxiety, it is very needful to be able to come away into another world of peace, calm, and beauty, to refresh and restore your soul and spirit in a river of sounds that literally wash away the cares and strains of the moment . "Altogether most interesting and enjoyable and it is all rewarding to listen to again and pick up more detail and gain new impressions.... never too intrusive, over-dramatic or eccentric, does not draw too much attention to its individual parts but works well as a whole in every case." Michael Tolkien
