"Hell Rock"- a blend of industrial, trip hop and rock. Dark and dirty with a sexual appeal. Electro under currents with abrassive guitars and bleeding vocals. 5 MP3 Songs ELECTRONIC: Industrial, ELECTRONIC: Trip Hop Details: Introducing Milwaukee, Wisconsin's one and only "Hell Rock" band Lockjaw. Avoiding commercial trends and the noxious sounds that infest mainstream radio, Lockjaw separates themselves from the trash. Influenced by industrial pioneers such as Skinny Puppy and Nine Inch Nails with a touch of glam in the vein of Motley Crue to the goth sounds of Bauhaus. Machine gun-like electronics, in your face vocals and superb musicianship define Lockjaw's sound. A revolution of sex, drugs and debauchery portrayed through music. Led by Medavon on vocals and guitars with an all-star cast including Chad on drums, Lowviolet on bass and Jose Ramirez on lead guitar. Local airplay and a strong live show has helped to get Lockjaw some great opening spots for national acts including Mudvayne, Damage Plan, Orgy, Bile, Godhead, Society 1, KMFDM and a sold out 4000+ show with Marilyn Manson. The latest Lockjaw cd "Hell Inside" features trademark Lockjaw songs like "Porno Face" and "Swallow". Songs that not only draw the listener in with their monstrous hooks but are also complimented with some of the dirtiest lyrics you will ever need to hear. Lockjaw's "Bored Again" from the cd "Dirty Minds and Smiling Faces" can be found on the recent X-Box game "Dead Rising". An over-the-edge stage show filled with all the necessary elements of sweat, smoke, strobes and unrelenting honesty adds to the live intensity of this band and keeps its loyal following coming back for more. Lockjaw is currently seeking a label for distribution and future recordings. If you are tired of the same old thing and need a new fix.....then Lockjaw is your drug.
