Manchester hops the pond while entertaining with a blend of british- folk/indie rock. 8 MP3 Songs FOLK: Modern Folk, POP: Beatles-pop Details: Manchester is a voice for those chaps wanting to grasp the old ways of life- where old men pack their pipes and tip their hats on an evening stroll- where the bakers barter with the blacksmith to fix thier loose wagon wheel- where shoes are still made of leather and steel. Justice and chivalry find a voice in Manchester, and the crowd breaks out in song on holidays. The local pub is a lifestyle, and there is plenty of whiskey to fight the winter chill. Their Chipper Acts of Chivalry album has a pleasantly la-de-da sound, somewhat suggestive of a more tongue-in-cheek Decemberists. Refreshingly unlike many brooding American shaggies of the current indie insurgence..." THE SOURCE WEEKLY, Vol. 10. Issue 29. [tweekly.com](http://tweekly.com) "Manchester displays rawk-solid stage presence with confident, stylish persona, and humorous, crowd-pleasing lyrical content - framed by serious musicianship and quality vocal delivery. Frankly, this band could go straight to the Letterman show, and perform admirably." Dale Strom Co-founder, RAWK the Inland Northwest Spokane, WA "Manchester's high-quality playing and singing, entertaining lyrics and antics, and spiffy style caused the crowd to raucously cheer and applaud." Jason Duba - Host of "The All Ages Show" on KYRS, The Spokane Community Radio Station
