Details: I write my songs based on life itself. I believe that music should be an expression of life. Music should be the sounds of peace, joy, and of truth so that we learn to embrace it with good feelings. I believe that music is an expression of life which can provide a better understanding of life. I chose to put my life's experiences into; my music, my notes, my sounds, and my words which comes through as expressions of dance, laughter, tears and the truth. I love all Women and my first professional CD is dedicated to all the Women of the world. The inspiration for "Woman" is not from my personal viewpoint but from life. In life, Women are stereotyped in many ways; it does not matter what the country, society, race and/or education. Women are all too often misquoted. As complicated as the Women's world seems, we as a society ignore the fact that Women are not just part of our daily lives, they are mother to the earth, our wives, daughters, and most important precious gift to us all. Women's co-existence with Man which is essential and permanent and it will be so until the end of time. It does not matter if we are disappointed by one woman, whatever the situation we still find ourselves drawn back to Women. The reality is Women are the flowers of the earth. I sing praises of all Women because I know they have experienced much in the world. I was born and raised in Nigeria. I realized my talent for music when I was a teenager and it is in Nigeria where I started writing, composing and even performing. I have traveled a great deal. I am presently living in New Jersey and continuing to produce my music. This is my first professional release along with "Woman" which includes 8 of my new releases. All songs are original and upbeat. I am not a person of many words because I believe that my work is my ultimate expression. I

hope you enjoy and learn the pleasure of my song. Peace to All Powertongue
