Progressive Psy Trance, Progressive House 8 MP3 Songs in this album (67:03) ! Related styles: ELECTRONIC: Psy-Trance, ELECTRONIC: Progressive House Details: Protonica was born when Piet Kaempfer and Ralf Dietze aka Ralle aus Halle started producing together in 2004. Their creative joint venture culminated in the creation of Orion Sleepers which saw release on AP Records in 2006. This first outing was followed up by their celebrated first ever long player, Search, last year. In 2008, producers from all over the world were invited to remix one of its most popular tracks, Upstream, the result of which is now being re-released as a remix collection compiled by AP Records to feed your neurons with fresh vibes. Progenitor and Alchemix from Greece, Synaptic, Sonic Species from Great Britain, WyL E Peyote from Northern Ireland, Solar Sound Network, Psyborg from Italy and Paulina Cewe from Sweden all did their very best in order to give Upstream a new feel: Oscillating between progressive and trance, with elements of psy which are eloquently mixed with subtle tones of techno, house and crisp minimal, the Progenitor remix drives forward energetically, whereas the hard progressive beats of Synaptic amaze with creaky effects. Sonic Species deep and mind-enhancing remix cranks up a gear as they throw in an abundance of interstellar frequencies and other time-bending elements and above all, a lot of drive. Alchemix rework sounds quirky and energising, WyL E Peyote tear the roof off with their explosive remix, whilst Solar Sound Network beam the dancers into another dimension. Psyborg sounds grippingly maniacal, and Paulina Cewe sweet and cosmic. An amazingly versatile collection that melds mind-expanding grooves with intense feeling and amazingly lush harmonies - just like Protonicas original track. Serial Number; AP164
