Details: This self-released and 2009 Morrhythm Records released cd, is a bit of rock, pop, blues, and country, with songwriting, singing, and guitar solos, mainly influenced by the likes of Lennon, McCartney, Harrison, Elvis, Santana, Keith Urban, and John Mayer. To be honest, it does not sound anything like those who influenced me. It really just sounds like me, which I for one, believe is a good thing. Of all my albums to date, this is more of the kind of music that I really enjoy, so I am sure that my musical influences are there lurking somewhere in my songwriting, my singing, and my guitar solos, of which this album features more of than any of my other previous albums. It took me much more time and effort to do this album, but for me at least, it was all well worth it. It was also a fun album for me and my son Raymond to do. He is my Ringo, but yet also truly unique, in doing another outstanding job on all of the drum tracks. Check it out along with my other cd releases, at cdbaby.com, or at outstandingmusic.com, the home of my record label, Morrhythm Records. Since 2005 the songs from my previous albums have continued to get much radio play on the mainstream worldwide radio charts. I cannot be sure if these new songs will also get the same amount of radio play, but if someone somewhere is enjoying it, I am happy. happy listening, Ray
