*****/***** FEATURING; Ken Holbrook, Keith Elkins Jamie Sawrie... A FEW WORDS ABOUT THIS PROJECT AND MYSELF... First and foremost, I want to thank my family for their inspiration on this endeavor. It really had it's meager beginings 38 or so years ago, when at the ripe old age of 6, I performed the song "Hansel Gretel" by the "Flintstones" (for a family Christmas party) while walking circles around the coffeetable in my parents livingroom. From there singing, working with various bands in the Youngstown Oh. New Castle Pa. area, and learning as much as I could about the music industry took as much precedence as, camping and hanging with friends. 1985 brought a move to Florida and life intervened, children to raise and several years of struggle, pushed music to the back burner. During these years a vow was made that one day, I would return to music and never look back. That return became reality in 1999, with a new Washburn guitar under the Christmas tree. In the time since, I feel as though I have been making up 18 lost years, but now I can finally start to share the fruits of my labor. Now with a Martin my trusty ol' Washburn, I am once again realizing my music as more than a hobby. So I thank my wife Marsha for that guitar on Christmas morning and the encouragement of friends and some great musicians. I hope you enjoy, and that this finds you well... P.S. You will notice a few differnt folk styles as well as a touch or two of bluegrass on this CD. This was done partly to show my differnt writing styles to give YOU the listener a varietal listening experiance.
