Jazz guitar trio reminiscent of The Grant Green/Larry Young days - bridging the gap between modern and traditional improvisation. 8 MP3 Songs JAZZ: Bebop, JAZZ: Traditional Jazz Combo Details: Just Jazz Guitar Magazine says of guitarist, Sheryl Bailey: "she is among the best bop guitar players and comes to each performance with a fresh approach and something new." Her previous release, "Reunion of Souls" has been named "one of the best jazz guitar records of the year" (jazzreview.com). On this new release, "The Power of Three!" Sheryl presents eight new compositions with her trio: drummer, Ian Froman and organist, Gary Versace - they are a popular attraction to NYC downtown jazz listeners. Based on the sounds of the Grant Green/Larry Young trio - The Sheryl Bailey Three adds their reflections of modernity and straight-from-the-gut power playing. They are a welcome new addition to the guitar/organ tradition. "Highly recommended! The quality of Bailey's compositions is worth pointing out, on this album, every one of them is more complex than you'd guess at first listen, and each of them is a gem. 4 1/2 stars" - Rick Andersen - All Music Guide "If you're a fan of organ trios that feature fabulous guitar work, you'll love Bailey's work. She's a player who will have you coming back for more." - John Heidt - Vintage Guitar
