

Mp3 Terry Stephen - In Your Presence

[DOWNLOAD HERE](#)

Cool Saxophone and Flute music that puts you in a place of peace and a desire to Worship 10 MP3 Songs
EASY LISTENING: Mood Music, GOSPEL: Traditional Gospel Details: Born grew up in Guyana South America. Some of my Favorite Horn Players were the late Grover Washington, King Curtis, and Cannonball Aderly. Many of us started to play music under difficult circumstances, no music in schools, but I knew I was born to play. I learned to play first a Guitar which I made my self and a harmonica which was purchased with a hard earned Quarter (\$.25) 1967. So I played by heart with all my heart. I started playing music professionally in the 1970s, and did a few tours in the Caribbean and South America. One high point in tour was playing with a Group that open a show for Lionel Richie and the Commodores November 1979 in Trinidad and Tobago. I got Converted and became and believer in Jesus Christ 1981 which was and is the Highest and best thing that ever happen to me, then started to preach and play The Gospel for Jesus Christ. I moved to New York USA in 1985 with wife and two daughters, then to Virginia 1989, and was always very active in church and music. A few years after I came to the USA a close relative of mine who lived here gave me an album and said that this guy sound like the way I normally play. That guy turned out to be Kenny G. I made My first two albums in year of 2000 and 2001. They are In His Presence and Golden Gospel and this year 2003 Joy at Night.
