Related styles: URBAN/R&B: Smooth Soul, URBAN/R&B: Soul Details: Dear Listener, Thanks for stopping by and checking out my music! I hope you enjoy this project as much as I enjoyed developing it for you. Love, Life, "Real"ationships and everything in between served as fuel for the lyrics. Special thanks to all my family and friends who contributed to the dream by giving inspiration and motivation to make this happen! I love you all dearly! In the beginning of this project, it was me, my piano, and my nephew Michael Tate cheering me on and dancing to my tunes. Long hours spent in the lab with J-Bris proves a connection based on friendship and music is untouchable...Thanks! And as this project comes to a close, it's purpose seems to unravel...this is a blessing, a feeling, a journey, a risk and my contribution to music--overall, my chance to share my "Inner Layer" with YOU :-) Come back and check out the page for the latest and updates! I will be posting new things all the time! Love to hear from everyone, so drop a line sometime... Peace and Love Toni Music Production: All songs written, originally composed, and Co-produced by Toni Williams (Indie). Executive Producer J-Bris (State of Mind Entertainment)
