

Mp3 Tracie De Jong - The Longest Day

[DOWNLOAD HERE](#)

come listen to the mp3 samples, if you can help with an accurate discription please email us with it, we really have no idea :) 10 MP3 Songs EASY LISTENING: Soft Rock, FOLK: Modern Folk Details: Winston Watusi - Bay News : "A debut album of rare beauty and poise; stylish , elegant and wistful. Unreservedly recommended... ..subtle and beautifully understated songs with a smooth and delicate flow... if looking at comparisons for someone who has never heard Traacie sing, I would put her in the general territory explored by people like the Cowboy Junkies or Julee Cruise.... Of the songs themselves, those lyrics written by Kieran, lyrically move within the mournful circle of the Cowboy Junkies. Both "Something Better" and the stunning "Jude" have the haunting sadness and human insights that characterise the Canadian band...elsewhere, the mood drifts from the perky light jazz of "letter from home" to the laid back Steely Dan feel on "Summer in the City".. ...listen to the album with a copy of the lyric in front of you and .. hear the way she twists and turns the words around,lingering on some, emphasising particular phrases in unusual and evocative ways, and all with a sensual, smooth and utterly beguiling warmth... " Nevin Topp - The Press : "The Longest Day' is excellent to listen to." Graham Reid - NZ Herald : "de Jong writes and sings sophisticated caberet material...lyrically avoids most of the late-bar atmosphere cliches ... sleepy sure voice ..all originals tastefully realised." Brent Giblin - Christchurch Star : " ***** Tracie has one of those voices ...flawless beautifully crafted songs...Beautiful album,search it out." all songs from this album should now be available for digital download at : LoudEye MusicNet and now definitely Apple iTunes U.S. Europe also ...
