This album is a circus trip into my version of the city i live in, a hell of a joy ride from lyrics to beats 18 MP3 Songs HIP HOP/RAP: Hardcore Rap, HIP HOP/RAP: West Coast Rap Details: Born and raised in L.A. Southern California, I grew up a young kid playing in the streets of El Sereno In the center of all hoods, a gang nucleus just east of L.A. While trying to express myself so very differently from the rest of these radio rappers and gangsters from thee old school to now, I quickly became a unique breed of lyricist. Living between classic rock, blues, jazz and Motown oldies I found hip-hop like a diamond in the rough not realizing just what I possessed. I ran between Venice beach to downtown skid row Competing against rep known rap heavyweights. Thanks to those rap battles I have created a universal style within me. Whether a gift or a curse, their will be no other artist like me, And being of Mexican descent a Chicano make's it very difficult to get recognition or respect in this music industry so I had no choice But to advance into other styles and lingo's with me poetry. Now I want to share it with this world as thee only Mexican who can blend jazz, funk, punk, metal, rock, blues, R&B, hip hop, rap, poetry, reggae, Caribbean, Spanish, salsa, cumbia, merengue, rancheras, alternative grooves, disco, even classic to futuristic And I have only just begun....
