

AdSense Revenue Booster

How to maximize AdSense Revenue

Hey guys! This is an ebook on maximizing the revenue of your AdSense websites. I have compiled a list of websites that are available to be used for AdSense by google. With this you can expand your AdSense empire and advertise a lot more and a lot more effectively. All websites besides blogger which is directly affiliated with AdSense require HTML coding to be available. Most public websites (like gamersoul, cheatengine.org etc) have HTML turned off to the public for security issues. However micro niche sites (like blogspot.net and tumblr.com) allow HTML coding which lets AdSense be used.

- **Blogger.com**
- **Blogspot.net**
- **Wordpress.com ~ You'll need to purchase your own hosting and use the Wordpress Template. You'll earn more \$ per click if you have your own site.**
- **Weebly.com**
- **Tumblr.com ~ you'll need to allow internet search indexing and input the HTML Code.**
- **Youtube.com ~ assuming they allow you too, Go to your AdSense control panel, click My Account and enable YouTube Access to your AdSense account.**
