

Cushing's Syndrome

[DOWNLOAD HERE](#)

1;Preface;6 2;Contents;8 3;Contributors;10 4;1: Physiology and Pathophysiology of the HPA Axis;14
4.1;Neuroendocrine Control of the Hypothalamo-pituitary-adrenal Axis;15 4.2;Circadian Rhythm;18
4.3;The Stress Response and Immune-endocrine Axis;19 4.4;Negative Feedback Control;20
4.5;Corticosteroid Hormone Action;21 4.6;Hypercortisolism and Pathophysiological Functions;23
4.7;References;27 5;2: Etiologies of Cushing s Syndrome;34 5.1;Definition of Cushing s Syndrome;34
5.1.1;Exogenous Cushing s Syndrome;34 5.1.2;Endogenous Cushing s Syndrome;35 5.1.3;Other
Conditions with Hypercortisolemia Without Cushing s Syndrome;35 5.2;Etiology and Pathogenesis;35
5.2.1;ACTH-Dependent Cushing s Syndrome;36 5.2.1.1;Cushing s Disease;36 5.2.2;The Ectopic ACTH
Syndrome;37 5.2.3;ACTH-Independent Cushing s Syndrome;38 5.3;Epidemiology;39 5.4;Approach to
Management;40 5.5;References;40 6;3: Pathogenesis of Corticotrophic Tumors;43 6.1;Animal Models of
Cushing s Disease;44 6.1.1;Transgenic Oncogene Overexpression in CD Models;44 6.1.2;Transgenic
Alterations of Hormonal and Growth Factor Signals in CD Models;45 6.2;Genetic Knockout of Cell Cycle
Regulators in Pituitary POMC Cell Tumors;46 6.3;Pathology of Human Pituitary Corticotroph
Adenomas;46 6.4;Pathophysiology;47 6.5;Molecular Pathogenesis Associated with Human Cushing s
Disease;48 6.6;Conclusions;49 6.7;References;49 7;4: Pathogenesis of Adrenocortical Tumors;53
7.1;Introduction;54 7.2;p53 Tumor Suppressor Gene and Locus 17p13;55 7.3;Acth Receptor, GSa
Genes, and PKC Activity;58 7.4;Multiple Endocrine Neoplasia Type I, MEN1 GENE, and LOCUS
11q13;58 7.5;IGF System and Locus 11p15;58 7.6;Comparative Genomic Hybridization Analysis;59
7.7;Microarray Analysis;60 7.8;Steroidogenic Factor 1;60 7.9;Wnt-b-Catenin Pathway;60
7.10;Conclusions and Perspectives;61 7.11;References;62 8;5: Clinical Features of Cushing s
Syndrome;65 8.1;Obesity and Lipid Metabolism;67 8.2;Skin Changes;69 8.3;Muscle Changes;71
8.4;Cardiovascular System;71 8.5;Nervous System, Neuropsychological and Psychiatric Changes;71
8.6;Electrolyte and Water Balance;71 8.7;Glucose Metabolism;72 8.8;Bone Metabolism: Osteoporosis;72
8.9;Gonadal Changes;72 8.10;Growth Retardation;72 8.11;Thyroid Gland;73 8.12;Immune System;73
8.13;In What Clinical Settings Should Cushing s Syndrome be Suspected?;74 8.14;References;75 9;6:

Laboratorial Diagnosis of Cushing's Syndrome: Differential Diagnosis with Pseudo Cushing's Conditions as Obesity, Alcoholism and Depression;77 9.1;Clinical Assessment;78 9.2;Laboratorial Diagnosis of Cushing's Syndrome;79 9.2.1;Urinary Free Cortisol;79 9.2.2;Midnight Cortisol;79 9.2.3;Low Dose Dexamethasone Suppression Tests;80 9.3;Second Tier Tests to Exclude/Confirm Cushing's Syndrome;80 9.4;Depression;81 9.5;Alcoholism;82 9.6;Obesity;83 9.7;Conclusion;84 9.8;References;84 10;7: Laboratorial Diagnosis of Cushing's Syndrome: Differential Diagnosis Among the Different Causes of ACTH-Dependent and ACTH-Independent Cushing's Syndrome;91 10.1;Introduction;92 10.1.1;ACTH-Independent CS;93 10.1.2;ACTH-Dependent CS;94 10.1.3;Dynamic Tests;95 10.1.4;Non-invasive Tests;95 10.1.4.1;High-dose Dexamethasone Suppression Test;95 10.1.5;CRH Stimulation Test;96 10.1.6;Desmopressin Stimulation Test;97 10.1.7;Combined Non-invasive Strategies;97 10.2;Bilateral Inferior Petrosal Sinus Sampling;98 10.3;Final Considerations;99 10.4;References;99 11;8: Imaging for the Differential Diagnosis of Cushing's Syndrome: MRI, CT, and Isotopic Scanning;102 11.1;Radiology in the ACTH-Dependent Cushing's Syndrome;102 11.2;Scintigraphy in the Acth-dependent Cs;104 11.2.1;Somatostatin Receptor Scintigraphy in Cushing's Disease;104 11.3;Adrenal Imaging in Cs;104 11.4;Adrenal Radiology in Cs;104 11.4.1;CT;104 11.4.2;MRI;107 11.5;Adrenal Scintigraphy in CS;107 11.5.1;Functional Imaging Modalities Specific for Adrenocortical Tumors;107 11.5.2;Non-specific Functional Im EAN/ISBN : 9781603274494 Publisher(s): Springer, Berlin, Springer Science & Business Media Format: ePub/PDF Author(s): Bronstein, Marcello D.
