***** Step Aside! is Blue Taxi's third and best CD. The album shows how the 10-year-old band's members have blossomed as musicians and, especially, as songwriters. All 12 of the disc's tunes were penned by band members, and they're all keepers. Bill Capuano proves conclusively he's one of the better electric guitarists Northeast Ohio has ever heard. Step Aside! shows the quartet at the top of its game. - Steve Byrne SCENE MAGAZINE -

clevescene.com ***** Ohio's BLUE TAXI is a blues band, there's no questioning that fact. But, their music, especially on this, their third release, goes above and beyond your typical blues sound. There's elements of pop, country, folk, as well as some great instrumentation. On top of all that, the trade off between male female vocals adds even more flavor to this already tasty release. - Paul Autry SPOTLIGHT MAGAZINE

groups.yahoo.com/group/spotlight_magazine ***** Its time one of the great blues labels like Telarc or Alligator pay attention and sign this group up before somebody else does. They really have their act together, literally. Da blues doesn't rock any harder or get more down to earth and soulful than this. Step aside, there's a Blue Taxi comin' your way, and it's not gonna stop for anyone. - Keith "Muzik Man Hannaleck musicdish.com/muzikman

Twelve songs of great variety.....the base here is definitely BLUES but BLUE TAXI take you on a ride beyond the blues with R N'R, pop, rockabilly superb musicianship. Not that they could do much more to add to their winning sound, but the fact that they switch from female male leading vocals adds much more diversity to such an already excellent release. I love this CD. Why don't YOU have it yet?? - Marcy Miller
