Process of my mind in making CUNEOP: This album is based on the excessive drug use, betrayal and the TANTALIZING TREATS of life that have been set forth that has only MADE ME STRONGER. SIN RULES this SICK LIFE around ME. I KNOW IT CAN DO THE SAME FOR YOU? CuneoP: The Lies Thrillz is a revolutionary sound and was born from this madness,sex, happiness and pleasure. Bio: CuneoP started off as a Neurotic Delusion (Heavy Punk Rock/Metal). The guitar player and myself had different ideas on how to succeed, so we ended in a peaceful way. After a couple months, I met up with an electronic club master Shaw 1 (Seth Agress) and we were in the studio like chemistry majors coming up the idea of the revolutionary sound of CuneoP: The Lies Thrillz. D.J Daris mix and mastered the album, SICK. I had certain a guitar and bass players drop riffs but he had to have an extensive back ground in electronic rock like Noah Webber. Beats were session drummers and synthetic drum beats from a keyboard machine and some live drum recordings.
