The CD combines tejano, traditional country, rock, and latin with Rachel's amazing voice. Rachel began singing at a very early age under the tutelage of her father Ray. It was her father who instilled in her his strong work ethic and emphasis on preparedness. It was clear early on that Rachel was a musical force to be reckoned with. Already a "star" in her homestates of Michigan and Texas, Rachel moved to the Country music mecca, Nashville, to stake her claim.
