If you like strong, thoughtful lyrics and great melodies , a little bit alternative, a little bit acoustic pop, this is for you. 10 MP3 Songs POP: Piano, ROCK: Acoustic Details: Stavia's first album, The Way You Are, brought her critical acclaim, and was featured in the UK on national radio - BBC Radio 2, radio 4, radio 5 live, and many other regional shows. Stavia's music is hard to pigeon hole and crosses many genres. It is lyrically engaging and thought provoking whilst melodically and musically it is an eclectic mix ranging from folk-influenced guitar and piano songs to catchy pop and more raunchy rock songs. The sad but un-sentimental 'Listen' - the last song on the album - contrasts with the up-beat feel-good pop tones of 'You Make Me Feel' whilst the rocky 'Dangerous' - about being led astray - provides enough variety to keep you entertained for a long while. Stavia plays piano, guitar and harmonica and has a 4 piece band - Grant Jamieson on lead guitar, Andy Coughlan on bass, Rob Fergus Smith on drums.
