With an emotional temperament equivalent to a pendulum in an earthquake, the spectrum of music delivered can span from violent aggression to airy contentment; casting aside the brutal noise of former recordings, "Everyone is Beautiful to Someone", the latest release from Stephen Knight, AKA EDGEY, brings about a different range of audible sound sculpture in a simpler, yet deeper pure form. "Being in control of my environment, rather than letting my environment control me, has had some effect on the writing process", states Stephen on the collection of recordings taking almost 2 years to complete, and it shows.
