Beatles Pop, Emo, Rock 11 MP3 Songs POP: Beatles-pop, POP: California Pop Details: Tatterdemailion, the Black Watch's eight full-length and third for LA indie pop label Stonegarden, is this critically revered Los Angeles band's unequivocal masterpiece; gloriously poppy, trippily psychedelic, fuzzy as My Bloody Valentine vs. The Jesus and Mary Chain, pastoral as the acousticish albums of XTC, and giddy as the Zombies on double espressos, this record reminds you why headphones--and dance floors--were invented. Two Irish guys, two Americans: one gargantuan sonic assault (with intermittent palate-cleansing acoustic songlings). Produced by lead guitarist Tim Boland (Soul Coughing, The Young Dubliners, the last three records by tbw). All songs written--as always--by the hyper-poetic John Andrew Fredrick.
