

Mp3 Early Next Year - Sarcasm Is Your Friend

[DOWNLOAD HERE](#)

Warning: These songs will get stuck in your head. Sorry. 7 MP3 Songs POP: Power Pop, ROCK: Emo
Details: What starts off as a tight rhythmic background, soon adds smooth bass lines and dual driven guitars. An outburst of synthesizer cuts the air, and a catchy vocal melody hits your ears. Orlando, Florida's Powerpop quartet Early Next Year will have you singing along with their songs by the second chorus... and who wouldn't want to? The lyrics are enjoyable and easy to relate to, offering a skewed perspective on the world around us, and in some cases, an intimate look at life. After just one listen you'll be so wrapped up in the music you won't even notice your foot tapping or head nodding. Early Next Year's debut release "Sarcasm is Your Friend" is a small compilation of songs that the band feels genuinely describes them. Each song has it's own feel, message, and tone and the band has perfected the art of singing a sad song in a not so sad way. From the bouncy sunshine feeling of "East Coast" to the dark but bittersweet closer "Beautiful Distraction", the songs take form in much different ways, but are still presented in their own catchy, powerpop formula.
