

Mp3 Flow.experience - Fade To Grey

[DOWNLOAD HERE](#)

A trip through alternative dance. 11 MP3 Songs ELECTRONIC: Dance, ELECTRONIC: House Show all album songs: Fade to Grey Songs Details: The music of the 80s has finally found a worthy contemporary exponent! Timezone released the recording by Flow.Experience, an EP-Single of the Visage classic hit Fade to Grey. A single which has got what it takes, in every sense of the word! This sensational 51 minute EP single (including a video) is the result of a collaboration between producer Massy from Nuremberg and DJs Andorian and B. Whitehouse from Munich. The latter are both leading lights of the Munich house and techno scene and were previously active in Union Move. DJ Andorian has also made a name for himself outside Germany and several of his remixes were very successful in Austria. For some time now, however, he has been concentrating exclusively on the Flow.Experience project. With Fade to Grey, Flow.Experience venture into a new age of Dancefloor productions. For this trio its not enough to simply rerecord a classic tune and add a couple of remixes. For their first release they have chosen to explore the rare form of the concept single and do so with enormous creativity. The musical spectrum of this recording is more or less unique and radio DJs will be drooling over the huge choice of 11 (!) remixes. Whether its the chill-out version in the Grey-House remix, or the pulsating beats of the video version, theres enough material here to keep the DJs of this world happy. Even the Classic version is guaranteed to send hard-core electro-pop fans into raptures! Or do you prefer it totally smooth? No problem, Flow.Experience have got this one covered too, with the Jazz version.
