Hard edged progressive acoustic music featuring mandolin, guitar and banjo; vocals with great melodies and lush, intricate harmonies 14 MP3 Songs GOSPEL: Contemporary Gospel, FOLK: Modern Folk Details: John April and Tim Moody (The M. Unit Project) formed a musical partnership shortly after the release of "Acoustical Pleasures," the acclaimed acoustic instrumental CD released by Tim in 1997. From this musical relationship and uncompromising love of all things acoustic, John and Tim began recording "Little Girls Dancing" at M. Unit Productions in Richland, Washington. These recording sessions spanned a 4-year period (1998-2002). The project came to completion in January of 2006. Unguided by the trappings of modern music, "Little Girls Dancing" represents a musical journey rich with an unfettered acoustic guitar, mandolin and violin sound complimented with distinct vocal melody lines and lavish vocal harmonies.
