An avian biologist presents original folk songs, inspired by a love for watching birds and living outdoors. 12 MP3 Songs FOLK: Modern Folk, FOLK: Field Recordings Details: Friends, Studying birds takes a considerable amount of time and patience. Often I have found myself playing with a melody, or scratching some lyrics next to my field notes. The result - four years later - is Bird Songs, a tasty collection of campfire favorites! These songs are the artistic culmination of thousands of hours of field research. They were written and recorded in 7 different countries! Bird Songs is printed with the birds in mind - the packing contains no plastic (besides the CD itself), is composed of recycled content, and is printed with soy-based inks. For every copy of Bird Songs I sell, I will donate \$1.00 directly to conservation programs dedicated to preserving and protecting threatened bird habitats. These projects will follow conservation plans developed by Partners in Flight ([partnersinflight.com](http://partnersinflight.com)).
