Neil Finn meets Adrian Belew for a drink at They Might Be Giants after getting into a mild fender-bender with Moxy Fruvous and Frank Zappa. 11 MP3 Songs POP: Quirky, ROCK: Progressive Rock Details: BUSHSONGS is the result of One Black Lung band leader Jerell Lamberts eyes being superglued to the Bush Regime Microscope of Horrors, going back to when W was still Chief Executioner and Governor of Texas. By the time Prince George assumed the title of Curmudgeon-in-Chief, Jerells "they did WHAT?" meter was well on it's way to blowing a major gasket. To avoid adding jackets that tie in the back to his wardrobe, Jerell scribbled down song after song to come to terms with the assault being undertaken by the cynical Bush White House on our once-great nation. "Leader of the Free World", "Mission Accomplished", "Boy King", "The Way of the Dodo" poured out until there was one song for every letter in GEORGEWBUSH. Stay-the-Course ("that means I'm flexible") George W, Head-Dunkin'-Face-Shootin' Chain-E, Everybody's-a-Pedophile-Terrorist-Lover Karl Rove and Donny I-Done-Got-the-Boot Rumsfeld tried every NSA trick in the book, but they couldnt stop One Black Lung from releasing BUSHSONGS upon a largely apathetic and trans-fat engorged world. It's eclecticpoplipop, y'all! BUSHSONGS wouldn't be BUSHSONGS without Jimmy Holloway's tasty drums, Carrie Miller's Richy-Rich cello, complete with that shrill trill, and the biting guitar work of Brian Collins musically dressing down the Boy King. Do the right thing for democracy and buy BUSHSONGS! ONE BLACK LUNG were not hacks!
