If the future were here, this what it would sound like- fast beats, deep in your face bass, ripping guitars, airy vocals, mood shifting, together forming grooves that will make you move. 12 tracks of the boldest Drum-N-Bass you ever heard. 12 MP3 Songs ELECTRONIC: Drum 'n Bass/Jungle, ELECTRONIC: Dance Details: CD over all reveiw. Bad to the bass, experience the elements = mood changing music that allows one to journey to places unknown, untouched, unheard unseen. The cd is full of sounds that are full of life. Drums that move stop and cut thur what ever is present. A bass that tells stories of the travels of lost souls, found souls, and searching souls. Together they make the grooves that make you move. A guitar that is both free and trapped depending on the track. It takes a ear to hear just what the guitarist is really saying. Keys that haunt, that calm, that can even hold one captive in this musical field of all possibilities. Add a sample here and there to off set the ordinary. And the voices, the voices. We are not going to say a word about the voices, but rather let them speak for themself. After all, that's what they do best. Introducing SkyFeather, Dionne Ronda. The voices! ENJOY.....
