"Use This Powerful New Software?To Force Your Visitors To Buy Your Products, Spend More Money, And Keep Coming Back For More!" Let's get right to it..... To make more money from your website, you need to increase conversions on the traffic you are already getting. You need your salespage to sell more copies, and you need your visitors to spend more money with you. The "Sales Trigger Generator"?Does Exactly That! As a matter of fact, you're already witnessing it in action! Look at this: This is the FIRST HIT of the 1-2-3 Punch that Sales Trigger Generator delivers. This is NOT a "ploy", these are the ACTUAL copies remaining before this offer is gone FOREVER. Showing your visitor the copies remaining does two things for you. First, the falling number provides a sense of urgency for your prospect, and the lower it goes, the more it works.... Another advantage is it provides what is known as "social proof" that others are buying this product too - "so it must be great!" We are instinctive creatures, and when we see others doing something, we have more confidence in our decision to do it too. The SECOND BLOW is that the user cannot leave the page, come back later and still get your reduced price! When the user refreshes the salespage, or leaves and comes back later, they will automatically be redirected to your "page 2 offer". This page will have another offer for the visitor, only at a higher price. You will make more money by TURNING PEOPLE AWAY from your discount offer when they don't take advantage within your time limit, or if they don't order right away!
