Discover How To Get Backlinks To Your Blogs Special Software And Video Training** Did you know that Google now handles 3 Billion searches every day? Getting on the front-page of Google for your chosen keyword can easily turn your website or blog into a Gold Mine. But getting a lucrative front page position is all but impossible, unless you have lots of quality backlinks to your websites and blogs. Our "Backlink Bullion" solution will help you create these essential backlinks, with an easy to use link finder service combined with quality video training... **YOUR QUICK AND EASY BACKLINK FINDER SERVICE...** One of the most effective ways to get backlinks is to leave comments on other people's blogs (each comment will include a backlink to your website). The exclusive Backlink Bullion Link Finder Service operates in conjunction with Google to provide a quick and easy way of finding suitable blogs that you can leave comments on. Here's a screenshot of the simple form that you use to find backlinks: Just enter your keywords into the form. You can even upload a complete keyword file, to allow you to easily search for hundreds of related keywords. The system includes full instructions on how to use the free Google Keyword Tool to generate keyword files. After you enter your keywords, the system will instantly generate a set of Google search links, allowing you to search for relevant blogs that accept comments. Here's an example of the search links generated from a search for two keywords "weight loss" and "lose weight": The system constructs special Google searches that will only find blogs that match your requirements and that allow comments to be posted. Just click on the link for the search you want - and the corresponding Google search results will appear instantly. You can search for three different types of blogs (WordPress, MovableType and Drupal) and you can choose whether to search for just .edu blogs, just .gov blogs or all blogs. You can also limit your searches to only find blog posts indexed since a particular date. So if you use the system on a regular basis, you can limit your searches to blog posts created since the last time you used the system. This simple system makes it quick and easy to find loads of places where you can create powerful backlinks to your own websites and blogs. **PLUS IN-DEPTH VIDEO TRAINING AND REPORTS...** To supplement the Link Finder Service, Backlink Bullion also includes a selection of essential videos and reports... If you've never done blog commenting before, you'll want to watch the special videos that accompany the Link Finder Service, which cover...
