Harmonica Wankin' Blues done with taste on a great variety of original songs. 11 MP3 Songs BLUES: Electric Blues, BLUES: Rockin' Blues Details: "Mean Old Town" is a Blues C.D. that has many different sounding blues songs on it. Some are more highly produced than others. Some follow the typical Blues pattern others don't. Many have great harp playing on them. (It's True) Many of the songs break the 3 minute barrier. This is because the songs needed some space. The last song "Why You Have to Be So Mean?" has been played on the Blues Radio Show called "Breakfast With The Blues". (Oct. 2006) The D.J. is "Coffee Jack". Jack plays 70 harmonica songs on his show. This show is every Wednesday and he calls it "Harmonica Hump Day". Jack is in Eugene Oregon and his show is on 91.9 fm. Thanks Jack, harp players sure appreciate friends like you! Some songs from this C.D. have also been played on the "Mojo Dreams" Radio Show in Belgium, FM 106.2 with Mark Verbert ... Nov. and Dec. 2006 ... Thanks Mark! Most of these songs are from the "write about what you know" school. I hope you enjoy them ... My live show features a great band that plays very traditional blues. These recordings go a little bit beyond the traditional and mix it up a little bit. Each song is different so might I suggest that you give each one a listen? Thanks ... My Current Band is "Big Harmonica Bob and The Outsiders" If you are in the Long Beach California area we play at "The Blue Cafe" on the First, Third and Fifth Sunday of Every Month on the Main Stage starting at 7pm. These songs should be fun ... Long Live The Blues!
