

Mp3 Bob Rylett - American Dreams

[DOWNLOAD HERE](#)

Intimate folk rock songs that catch the spirit of September 11/2001 12 MP3 Songs FOLK: Political, ROCK: Folk Rock Details: bob rylett -- this canadian-born neo-folk singer is either a genius of timing or a shameless opportunist. his latest cd, american dreams, comes with old glory splayed across the cover and contains dylan-esque devotions to lady liberty and the american way. oddly enough, the formula mostly works, with rylett summoning springsteen's angst and shawn mullins' habit of half-talking through his art. creative loafer magazine(butler)atlanta georgia bob rylett singer/songwriter bob rylett was born and raised in vancouver, british columbia, canada. immersed into music at a very young age he fell in love with the stories of love and loss, death and hope, and these story's were told by great men and women...neil young, gordon lightfoot, leonard cohen, joni mitchell, bob dylan, jim croce, van morrison, the list spirals on and on...after a year in university bob dropped out bought a guitar and pretty much alienated himself from all clear headed friends and family that he had...but the guitar stayed and bob played and listened and began picking up gigs covering the aforementioned artists and so many more....this stories been told you say???? well one night bob went to bed and had his first true mystical experience...he left his body. it was an o.b.e. it was an astral projection, it was a surreal world that actually existed....the one thing it was not... was a dream...dreams fade, dreams blur...this stuck like a first kiss or your first orgasm...this was real! and memorable! the next morning things changed for bob rylett...he began to write and write and write...the songs would come out of him faster then he could write them down,,,,,he took to just memorizing them right off the bat...and a library grew and still continues to grow today. the album "its all gone " has surpassed 5000 sales just off stage, the internet and word of mouth...his newest album (the soon to be released "carnivale") promises to be even more diverse and full of great songs about you and me. bob has played from the whistler mountains to the keys of sunny florida

and everywhere in between...his reputation grows...and so does he...have a listen and a laugh , cry, or thought...because that's what bob rylett does.... take a few moments...there are still singers writing songs to inspire , teach , tell a story,warn, mourn and scorn.laugh and point the finger at each other and ourselves. please listen! its all gone a 15 song cd filled with storys of life and death love and lust ,fools prophets and believers.with soulfull wisdom bob rylett opens up and shows us ourselves all the while making us laugh and have faith again.bob rylett has 3 other full length albums and another on the way...
