Drawing from her deep roots in Country music, Charone mixes a special blend of Pop, Classic Country, and "knock your socks off" Country Rock. In her bluesy rendition of Natural Woman, Charone uses her 4 1/2+ octave range and dynamic vocal style to take the much recorded cover song to another level. The remaining 10 songs on this CD are original, revealing Charone's diversified songwriting skills and more of her impressive singing. The musicians are all superb. The piano solos are colorful and the signature guitar solos will have you stopping whatever you're doing and picking up that "air guitar" of yours! Having a bad day? Just listen to Heart At The Bank and it will put a smile back on your face for sure. Love to be in love? Forever Yours is for you. Included is a special bonus track called Saying It's Alright. In 2004, Charone lost her dad and a year later, her longtime friend/co-writer, Andre Mayeux (who is also featured on this album), lost his mom. Out of their loss, has come a collaboration of Andre's beautiful music, and Charone's emotional lyrics that has touched the hearts of everyone who has heard it. All in all, this is an album that will take you on a gratifying musical journey you will want to experience again and again.
