Some waylon-conway-elvis-and talley-laugh till you cry-then relax to one great gospel song last 10 MP3 Songs COUNTRY: Traditional Country, CLASSICAL: Traditional Details: I laughed till i cried when I heard Dave Talley do his mule song, the first time, and then come right back with "Every Time I See a Pig I Think Of You." Mount N'Trail Magazine" sends Dave's thoughts and good music to the whole USA. Branson mo is where we are going now and then its hard to say where next. Dave "muled" and "pigged" several hundred people at the last trail ride with me, his producer and friend, Gene Strasser, and his whole band. Antique Records found dave crawling down from his horse and looking for his Son "Montana" and a pencil and paper to write his next song- "Mountain Trails" "Cold Day in Hell". "Every Time I See a Pig I Think of You" has been played on Dr.Demento's show and is in the Doctors album of the year. "If That Woman Was a Mule" was played many times at one trail ride outing and soon everyone knew it and sang along---Dave loved every minute of the trail riders and their wives just singing along for hours. Then..."You Finally Said Something Good (When You said Goodbye") a national hit by Charlie Louvin. and Johnny Halliday in france, but it has never been done any better. Dave didn't leave his best friend out of the album either "Jesus made my life worth living" is a quote from the heart, in his great gospel song "He Paid The Price". It was wild producing this album for Dave and Antique Records and being able to pen "It's So Unusual" for Dave to sing at his best. Antique Records and all of us here at Country Party Music, wish Dave the great success he deserves. So now set back and listen to the different songs that will make your life a little brighter. We love you Dave--- Gene Strasser, Antique Records.
