Country-Rock-blues humorous music 13 MP3 Songs COUNTRY: Modern Country, COUNTRY: Country Rock Details: Who am I and what the hell is this CD all about? Influenced by the music from the last five decades in combination with the events, politics, parties, peripherals, and sins of these musical eras, best describe who I am and the music styles on this CD. The songs are original (one is a parody), humorous, truthful stories of everyday life in the last 40 plus years with my twist on the lyrics. I feel people enjoy catchy tunes and lyrics that tell a story and bring out the emotions we all feel. In this CD I have concentrated for the most part on the emotion we need the most---Humor. I am proud to include a song for our troops serving in the Military that I wrote while my son served in Iraq. We all know there is no humor in that situation. Purchasing the CD or any of the songs will definitely improve your disposition and get you smiling. I had more fun doing this project than I can describe. Who am I? Just an ordinary, overweight, middle aged guy with a marriage, mortgage, Taxes, children, and all the other crap associated with life today, who just hasn't grown up yet, plays guitar, and writes songs. THANK YOU for the interest and enjoy the tunes!!! Peace!! John Ward
