Moon Theory offers a captivating synthesis of future rock and trip hop, blending female vocals, electronic grooves and guitars - delivers satisfying and stirring impulses from intoxicating to aggressive, with an undercurrent of sensual ancient spirit. 12 MP3 Songs ELECTRONIC: Trip Hop, ROCK: Modern Rock
Details: Moon Theory pushes the trip-hop envelope with hypnotic and aggressive beats, mesmerising female vocals, and unearthly atmospherics. Carefully crafted, enjoyable and accessible songs with symmetrical melodies and deeply fascinating and stirring lyrics. Like Garbage on ecstasy, the self-titled CD tantalises with a guitar-oriented, organic beauty while injecting potent doses of futuristic chaos. Imagine Nine Inch Nails after a few years in an ashram. Or a track from the new Matrix Soundtrack. Vocalist Kaeti O'Ghara commands with a powerfully engaging style likened to Bjork with the smoothness of Morcheeba and the moodiness of Portishead. Moon Theory's lyrics and melodies have a gothic feel like Sousex and the Banshees with an edgy burn. Production, instrumentation, and arrangements accomplished by the alchemical TSO. An extremely immaculate, modern and broadly appealing production quality. Moon Theory morphs driving hiphop beats with dangerous liquid enchantations both sensual and ancient.
