Songs Details: Thanks for stopping by to check out my music. Or if youre already familiar with my music, welcome back! If youre feeling stressed out, Dream Music will calm your day. I created this music to help you slow down, surrender to a deep rejuvenating sleep, have a relaxing dinner, release your stress into a hot bath, slip back into a warm couch, meditate with a candle, stretch yourself into yoga poses, bring along for your massage, escape the frustrating traffic. Im excited to be able to offer you music that will take you into a different mental state and improve your mood. I kept it positive and dreamy never crossing the line into dissonant nightmare music. There are no six minute drones or harsh noises to take you out of your peaceful zone. No vocals means your brain can close its verbal communication wing and allow you to think less and dream deeper. With over 500 instrumentals and vocal songs floating around on TV and Film, chances are youve already heard my music without knowing it was me. Also, as a recording engineer, musician and arranger, Ive worked with artists as varied as Cat Stevens, Public Enemy, Jimmy Cliff, Vanessa Williams, and LaToya Jackson. Please listen to the samples on the left and feel where the music takes you. I think youll like that place.
