Spooky, whimsical, melodious, atmospheric British/ American pop songs for art films. Hence the album title Pop Songs For Art Films. 11 MP3 Songs POP: Quirky, ROCK: Emo Details: First up I have to say that I refuse to talk about myself in the 3rd person any more.. I don't care what everyone else is doing...I swear it makes me feel schizo... okay now I got that off my chest... Originally from Manchester England, now based in Oakland California, I have to say that of all the bands I've been in this is the best line up. It's like being in the band that's lived in my dreams all these years, doing the music I've always dreamt of doing.. and this is just the beginning. Described as spooky pop for grown ups or like a cross between the Massive Attack and the Pet Shop Boys , TMF features the talents of long time Bay Area Drummer Mark Bernfield, Guitarist Brother Jack Elder, Bass player David Brooks on Bass and recent addition Matt Granz on Rhythm guitar. I sing and play guitar and piano. The new album Pop Songs for Art Films, co produced with William Duke is my first after the handsome poets dissolved in 2000. Since then I have been recording and producing local talent and have written music for theater and film. Look out for TMF to pop up at local clubs,markets and coffee shops around the Bay Area before they embark on the UK tour next spring Go to myspace.com/thatmanfantastic for more info
