This is a big, beautiful album. The influences range from Serbian, to African, to blues, to Latin and all very lyrical and musical. 13 MP3 Songs ROCK: Progressive Rock, WORLD: World Fusion Details: This is the third CD by singer/songwriter Bob Nordquist (all are available at CDBaby.com). Now he has joined with Leo Whitebird, Brian Russ, and Dale Engquist to form The Intangibles. We call ourselves the Intangibles because of the little things you can't put your finger on that make this band more than the sum of its parts. We combine influences and experience from many music genres and many parts of the world. We've all been in several other bands, some successful, some obscure, but whether we're playing bluegrass or blues, Latin or Eastern European, or straight out rock and roll, we play with a passion and respect for the story we're telling and the mood and energy we're sharing.
