Pop Rock Classical Dance 16 MP3 Songs POP: with Electronic Production, ELECTRONIC: Pop Crossover Details: Pierrefonds, QC, May 15th, 2006 Dear Normand: Thanks a million for the pleasure of having received your new CD: Jennifer. Just listening to Nadiya right now. Love it! The 'intro' must have been influenced ... by Mozart?... Really Norm, you've come up with some powerful sounds, here on this CD. I listen to it and wonder:...now where's he going to go with this?...and you Go. And it's an experience in sounds and imagination there..whence they came. Gotta be proud of that, Norm. I am. Jennifer. You can 'feel' the loss when listening to their resonance. Must have been rather difficult to do. But you did it. Congrats. You know, if your music was All Violins, it would sound like the old...and I really mean old, in the 1675/1785 era, classics. Classical music with a beat. That's what I can tag to some of your innovative sounds, Norm. It's beautiful and I thank you for sharing it with us. You put a Lot of blood sweat and tears into that one. It shows. LOTS OF LUCK WITH IT! I can't be the 'only' listener, man. I know I'm not. It must be SHARED with the public. A complete CONCERT, gracieus de mon ami Normand Jones. Love to all, as always, Gilles, Bev, John and Mike. Christ help me, Norm, you'll have them HOPPING...especially with #15: Joy of the Monk. By the THOUSANDS!
